

	Name of Company	Main country of Operation	Sector	Brief Description	Commitment date	Website
	Data Integrated Ltd	Kenya	Fintech	The fintech has developed a holistic end-to-end payment and business analytics solution for the public transport sector, enabling local bus cooperatives to monitor their buses (number of tickets, number of passengers, etc.), improving efficiency and profitability, and overcoming corruption in the Kenyan transport sector.	19.12.2018	<a href="https://dataintegrated.co.ke/">https://dataintegrated.co.ke/</a>
	KUDURA Power East Africa Ltd	Kenya	Greentech	The business purpose of the KUDURA Power East Africa is to deploy and to operate mini-grids in order to supply electricity and water to small villages. The company intends to develop its business in Kenya in the long term and plans to operate 60 sites in the next 4 years, providing access to electricity and water for 50,000 people.	21.01.2019	<a href="https://kudura.africa/">https://kudura.africa/</a>
	ME SOLshare International Pte. Ltd.	Cross-regional Asia	Greentech	ME SOLshare, provides a swarm-electricity trading platform for densely populated communities with off-grid solar home-systems for energy-generation and -storage – so-called “decentralised peer-to-peer micro-grids”. Through its SOLgrid platform the company sells the required hardware- and software-products that are offered in a software-as-a-service-model.	24.07.2019	<a href="https://solshare.com/">https://solshare.com/</a>
	Inclusivity Solutions (PTY) Ltd	Kenya	Insurtech	Inclusivity Solutions is an African-based insurtech company offering digital insurance products and services. Putting the emerging consumer at the centre of their business, Inclusivity seeks to co-create risk protection products that are simple, affordable and accessible to market participants that have largely been excluded from traditional insurance distribution.	06.12.2019	<a href="https://inclusivitysolutions.com/">https://inclusivitysolutions.com/</a>
	SolarWorx UG	Cross-regional Africa	Greentech	Solarworx develops innovative solar home systems, the modularity of the basic system is unique and allows the end customer to gradually adapt the system successively to their electricity needs. As capital procurement is often expensive in the target countries, Solarworx allows qualified distributors to pay 60% in advance and 40% within 10 months after delivery. In this way, a large number of households and small businesses can be supplied with ecological electricity and CO2-intensive energy sources such as kerosene can be substituted.	10.12.2019	<a href="https://www.solarworx.io/">https://www.solarworx.io/</a>
	TFE Energy GmbH	Cross-regional Africa	Greentech	TFE was founded to move economic value creation into communities and help rural economies to develop. By developing data analytics and related services, TFE Energy can provide investors, companies and government planners with the data they need for energy decisions, ensuring that even undermapped remote areas are efficiently supplied with electricity.	01.07.2020	<a href="https://www.tfe.energy/">https://www.tfe.energy/</a>
	Novex Ltd.	Kenya	Greentech	Novex Limited builds proprietary Internet of Things (IoT) technology (including hardware and software) designed for and in Africa. The company uses this technology to design IoT-enabled dispensing machines to dispense products in small quantities, such as edible oils. They provide a safe, hygienic, data enabled way of distribution and eliminate the need single-used plastics.	07.10.2020	<a href="https://www.novex.io/">https://www.novex.io/</a>
	Frenvi UG	India	Greentech	The start-up FRENVI (“FRiendly ENVironment”) was incubated in Heidelberg, Germany and is developing innovative zero-waste products as sustainable alternatives to single-use plastics, with a first product focus on edible cutlery called EATery®. By setting up a pilot manufacturing plant for the production of edible cutlery in Bangalore, the innovative project addresses and helps to overcome two major challenges in India: plastic waste and unemployment.	14.04.2021	<a href="https://frenvi.de/">https://frenvi.de/</a>
	Ecoenergy SAC	Peru	E-Mobility	Ecoenergy was founded with the purpose of supplying renewable energy in Peru. The company has developed electrically-powered transport vehicles, so-called motorbikes, that are adapted to local conditions. These motorbikes can be rented, providing local taxi drivers with a more fuel-efficient cab. The batteries last for 120 km, but can also be recharged at the company's locations if necessary.	05.05.2021	<a href="http://ecoenergysac.com/">http://ecoenergysac.com/</a>
	Africa AI Labs Ltd	Kenya	ICT	The company sets up private cyber work labs in underserved communities, trains local unemployed low-skilled workers in computer-based data labelling and then employs them at international data labelling platforms. The trained and employed workers use Africa AI's cyber lab infrastructure to work remotely for these platforms. Africa AI helps overlooked high-potential workers living in informal settlements or rural areas to increase their income on average by four times.	09.06.2021	<a href="https://www.africa.ai/">https://www.africa.ai/</a>
	TNH Digital Health SA	Brazil	Healthtech	The company is specialized in the development of technologies and applications for digital platforms in healthcare. In Brazil, especially mental illnesses often remain undetected and untreated. To counter this, TNH has developed an app with integrated AI-powered chatbots to identify and treat these issues. High-risk cases are also identified and forwarded to psychiatrists for further investigation.	14.07.2021	<a href="https://tnh.health/en/">https://tnh.health/en/</a>
	Flow Uganda Limited	Uganda	Fintech	Flow is an inclusive FinTech company focused on providing e-money and working capital to shopkeepers offering mobile money services in Uganda, enabling them to thrive in the digital economy. Flow uses mobile money as an entry point to build customer relationships with shopkeepers. Shopkeepers with good credit performance over time also qualify for working capital loans for shop inventory.	16.07.2021	<a href="https://www.flowglobal.net/contact/">https://www.flowglobal.net/contact/</a>
	Pricepally Ltd	Nigeria	AgriTech	Through an e-commerce platform, the startup allows its customers to buy and share food in bulk. As all products are sourced directly from rural farmers and wholesalers, PricePally is able to offer low and middle-income families up to 25% lower prices than traditional retailers. This helps to reduce dependence on foreign imports, improve food quality, reduce carbon emissions, and increase the income of local farmers and wholesalers.	08.09.2021	<a href="https://pricepally.com/">https://pricepally.com/</a>
	Wazitalk Ltd	Kenya	E-Mobility	By combining digital (chatbots, videos, and mental health assessments) and in-person services (certified therapists), Wazitalk's makes access to healthcare services more affordable and accessible. Wazitalk also offers white-label mental health programs such as creating a therapy marketplace for employees and others.	02.02.2022	<a href="https://www.wazi.co/">https://www.wazi.co/</a>
	Shamba Pride Ltd	Kenya	AgriTech	Through its DigShop franchise network, Shamba Pride provides services to smallholder farmers. Shamba Pride enables last-mile agro-dealers and cooperative entrepreneurs to digitally connect with smallholder farmers and provide them with agricultural inputs, information, and services. Farmers are able to increase their farm productivity and sustain their employment and household income.	17.02.2022	<a href="https://shambapride.com/">https://shambapride.com/</a>
	Kwangu Kwako Ltd	Kenya	Sustainable Housing	The company provides design, manufacturing and construction of precast modular building systems. This includes concrete and metal components as well as off-site manufactured components such as wall panels, doors, roof sheeting and windows. This minimizes waste, maximizes quality and speeds up the construction of affordable houses and other community structures. The company offers a guaranteed completion date and fixed costs, delivering classrooms at 50-60% of traditional masonry solutions.	25.02.2022	<a href="https://kwangukwako.com/">https://kwangukwako.com/</a>
	SunCycles Electrics Namibia CC	Namibia	E-Mobility	By providing solar-powered e-bikes that are adapted to local conditions, SunCycles Electrics Namibia aims to improve the mobilisation of Namibian communities. The E-Bikes are versatile (ie. internally delivered food, medical supplies, transport and other goods) or easier access to infrastructure for rural populations), so they have a great social impact while saving CO2.	28.02.2022	<a href="https://www.ebikes4africa.org/">https://www.ebikes4africa.org/</a>
	Pezesha Africa Ltd	Kenya	Fintech	Through an embedded marketplace, Pezesha Africa connects fundless MSMEs with distribution partners and institutional investors to provide access to affordable working capital loans. Based on real-time credit scoring, the company offers different lending options. The company helps to close the gap in MSME financing, allowing emerging sectors and markets to develop.	28.02.2022	<a href="https://pezesha.com/">https://pezesha.com/</a>
	Mvuto Earth Ltd	Kenya	Fintech	Gravity's solutions empower individuals at the bottom of the pyramid by building trusted digital identities that are private, portable and persistent. By feeding data from the customer's suppliers and other credit-related data sources, a portable and persistent financial identity of the customer is established, which aims to overcome the information asymmetry between lenders and borrowers.	28.02.2022	<a href="https://www.gravity.earth/">https://www.gravity.earth/</a>
	Brrng Digital Ltd	Kenya	ICT	IT start-up Brrng provides African entrepreneurs and SMEs with an easy-to-use software integration platform that enables customers to automate their manual business (ordering, delivery, payment) through an API integration. Brrng focuses primarily on African applications that have poorly documented APIs. In this way, Brrng catalyses the technologisation of African economies and ensures their survival in a rapidly changing world.	06.07.2022	<a href="https://studio.brrng.com/">https://studio.brrng.com/</a>
	Kiri EV Ltd	Kenya	E-Mobility	The company's core business focuses on the sale and leasing of e-motorcycles. In addition Kiri EV offers ancillary services such as PAYGO battery charging. By providing cheaper and environmentally friendly fuel to drivers, Kiri contributes to the green transition of domestic transport.	07.07.2022	<a href="https://kiriev.com/">https://kiriev.com/</a>
	10Agrow Technologies Ltd	Kenya	Fintech	10Agrow is a digital platform that aims to strengthen the purchasing power of vulnerable groups (e.g. women, low-income households and micro businesses) by forming smart consumer groups. By merger, they can leverage their collective purchasing power and negotiate premium prices (20% below market rate) for essential products.	10.07.2022	<a href="https://sukhiba.com/">https://sukhiba.com/</a>
	Agribora Kenya Ltd	Kenya	AgriTech	Agribora's main goal is to empower smallholder farmers to engage in agribusiness by giving them access to finance. Agribora provides its customers with an e-wallet where they can create their own accounts and receive earmarked loans based on their transaction history, which is intended to derisk smallholder farming systems and improve farm productivity.	14.07.2022	<a href="https://agribora.com/">https://agribora.com/</a>
	Play Zuri Health Ltd	Kenya	Healthtech	Zuri Health is a health app (virtual hospital) providing affordable and accessible healthcare services (chat with doctors, buy medication from pharmacies, book diagnostic tests and doctor visits at home) via mobile app, website, Whatsapp bot and SMS service. Thus, Zuri Health ensures to reach a broad population while creating job opportunities across Sub-Saharan Africa.	18.07.2022	<a href="https://zuri.health/">https://zuri.health/</a>
	Simusolar Ltd	Tanzania	GreenTech	Simusolar provides technical and digital solutions to equip smallholder farmers with solar water pump systems. The irrigation pumps work on a Pay-As-You-Go (PAYG) system and have an integrated data collection for customer usage analysis. With a mobile sales app the sales team designs customised irrigation solutions for farmers.	02.12.2022	<a href="https://simusolar.com/">https://simusolar.com/</a>
	Flamingoo Foods Company Ltd	Tanzania	AgriTech	Flamingoo Foods Company Ltd is one of few Tanzania's rice and maize producers and operates as an innovative food supply chain startup. Flamingoo Foods' business model is based on a data-driven sourcing, storing, processing and selling of paddy rice and maize. Through this innovative data-enabled approach, Flamingoo Foods is playing an important role in improving local food security by building resilience to climate extremes.	07.12.2022	<a href="https://flamingofoods.com/">https://flamingofoods.com/</a>
	Mazi Ltd	Kenya	E-Mobility	Mazi Limited provides on-demand clean energy mobility services. This includes electric motorcycles (for sale) paired with battery swapping infrastructure (Battery-as-a-Service). Moreover, the startup owns and rents batteries to commercial motorcycle riders ("boda bodas") and businesses on a per-use fee. By developing an ecosystem of connected e-bikes, batteries and swapping stations, the company is providing a realistic, greener and cheaper alternative to high pollutive and expensive petrol bikes.	23.12.2022	<a href="https://www.mazimobility.com/">https://www.mazimobility.com/</a>
	Ziotio Un. Ltd	Tanzania	E-Mobility	Ziotio Un. Ltd. sells smart, IoT-connected, zero-emission electric 3-wheelers directly to professional taxi drivers on a lease-to-own scheme. The smart, internet-connected system allows 100% remote asset control via a web and phone app. Ziotio's model allows self-employed drivers to increase their income, save money, and become financially stable vehicle owners themselves.	20.01.2023	
	Drop Access Ltd	Kenya	Healthtech	Drop Access Ltd is a female-led company and is the first to manufacture a portable solar-powered cool box for the delivery of vaccines and medical supplies in rural areas in Africa. The "Vaccine Box" is a real innovation that uses technology IoT integration in terms of remote data collection and monitoring capability, data on temperature, location, battery voltage, stock, and fridge operations can be accessed from anywhere in the world in real time.	31.01.2023	<a href="https://dropaccess.org/">https://dropaccess.org/</a>
	Biobuu Tanzania Ltd	Tanzania	AgriTech	Biobuu Tanzania Ltd. is an organic waste collector and processor in Tanzania. The company has developed a large-scale factory model to produce insect-derived protein products, especially low-carbon animal feed and organic fertiliser (compost), from organic waste collected from the local markets. In this way, Biobuu supports local governments to deal with the huge amount of organic waste, helping citizens to improve their health and helping the environment by the reduction of CO2.	01.02.2023	<a href="https://www.biobuutz.com/">https://www.biobuutz.com/</a>

	<b>Dawa Mkononi Ltd</b>	<b>Tanzania</b>	<b>Healthtech</b>	Dawa Mkononi Ltd. is a data driven B2B e-commerce marketplace for healthcare facilities to procure and receive products delivered via an easy-to-use mobile app. In addition, the technological features of Dawa's platform enable the company to have full visibility of their own internal operations and to provide their B2B customers with key insights on their inventory management to reduce waste	08.02.2023	<a href="https://dawamkononi.co.tz/">https://dawamkononi.co.tz/</a>
	<b>SASAhealth Ltd</b>	<b>Kenya</b>	<b>Healthtech</b>	SASAhealth is a telemedicine provider which has developed an innovative and unique end-to-end medical solution to provide affordable and 24/7 accessible primary medical care via comprehensive telemedicine services. To control costs and ensure quality, Sasa provides all services in-house wherever possible and is a licensed medical clinic, licensed pharmacy, and licensed laboratory.	01.03.2023	<a href="https://sasadoctor.co.ke/">https://sasadoctor.co.ke/</a>
	<b>Yusudi</b>	<b>Kenya</b>	<b>ICT</b>	Founded in 2016, Yusudi provides customized training, coaching and placement services to young talent through its training academy. Yusudi has become a key player not only in qualifying graduates for employment in sales, but also in placing them in the labor market in a timely manner. In this way, it creates a virtuous cycle of talent and business growth and an improvement in income levels.	01.03.2023	<a href="https://www.yusudi.co/">https://www.yusudi.co/</a>
	<b>Kazi Yetu Ltd.</b>	<b>Tanzania</b>	<b>Agritech</b>	Kazi Yetu Ltd. produces organic leas, herbs, and spices without the use of chemicals for B2B and B2C customers in Tanzania and Europe. The products are locally grown, processed, and marketed, come in biodegradable packaging and can be traced from cultivation to consumption. The company promotes women's economic independence and is certified as a B Corporation.	10.07.2023	<a href="https://www.kazi-yetu.com/">https://www.kazi-yetu.com/</a>
	<b>Dial A Pad Ltd</b>	<b>Kenya</b>	<b>Healthtech</b>	Dial A Pad Limited manufactures smart IoT enabled sanitary towel dispensers and places them into schools, workplaces and public places to combat period poverty in Kenya. Dial A Pad's solutions overcome the issue of last-mile delivery and thus provides an effective, accountable, and transparent distribution system for the governmental free sanitary towels Program. Schools and county governments can use the collected data to monitor early marriages and teenage pregnancies and intervene accordingly.	09.06.2023	<a href="https://dialapadafrika.co.ke/">https://dialapadafrika.co.ke/</a>
	<b>Stima Mobility Ltd</b>	<b>Kenya</b>	<b>E-Mobility</b>	Stima Mobility Limited provides green tech solutions for the motor-taxi sector in Kenya. The company sells battery swapping services to individual electrical moto-taxi riders (boda boda riders) and is building an operating system of battery swapping stations. Additionally, STIMA has developed a full battery technology suite based on an IoT system that embeds software for Battery and Station Monitoring, a Rider App and a Swapper app.	20.06.2023	<a href="https://stimaboda.com/">https://stimaboda.com/</a>
	<b>Aquarech Ltd.</b>	<b>Kenya</b>	<b>Aquaculture</b>	Aquarech Ltd. has developed Kenya's first fish farming platform to enable the unlocked potential for job creation and food security of sustainable fish farming. Through the platform, fish farmers, fish feed manufacturers, and fish buyers can trade and build business relationships. The platform includes credit-financing services, a fish buy back system, a mobile app to easily purchase feed and a USSD platform for non-smartphone users. To establish a sustainable way of fish farming, Aquarech uses IoT water quality monitoring devices and provides climate-smart technical support to its fish farmers.	05.07.2023	<a href="https://www.aquarech.com/">https://www.aquarech.com/</a>
	<b>Farm to Feed Ltd.</b>	<b>Kenya</b>	<b>Agritech</b>	Farm to Feed is addressing fresh produce supply and climate change solutions. They company created a market for imperfect/plus produce, connecting smallholder farmer to the market and offering lower-cost products to the customer. FTF aims to transform the food system and is developing a data strategy for identifying food loss drivers and implementing a carbon credit model. They're also exploring semi-processing services and data products for additional income streams.	28.07.2023	<a href="https://www.farmtofeedkenya.com/">https://www.farmtofeedkenya.com/</a>
	<b>Goldenpot Ltd.</b>	<b>Tanzania</b>	<b>Food Processing</b>	The start-up is the first Tanzanian company to produce maize flour based breakfast cereals in smaller quantities than the international competition for the local market. The maize flour is fortified with micronutrients and due to the smaller quantity packaging (one meal packaging). Goldenpot's cereals represent a nutritious food product accessible to lower- and middle-income households. The company is female founded, managed and sources its maize primarily from local female farmer groups.	31.07.2023	<a href="https://goldenpot.co.tz/">https://goldenpot.co.tz/</a>
	<b>Vuma Biofuels Ltd.</b>	<b>Kenya</b>	<b>Renewable Energy</b>	Vuma Biofuels Limited produces modern biomass fuels using innovative methods. For its so-called "Sugarwood" Vuma uses sugar industry waste (bagasse) rather than conventional firewood from trees. The company's product portfolio consists of three different bagasse products that benefit different target groups: Fresh briquettes for industries, aged briquettes used at schools and pellets sold to households or cooking.	05.07.2023	<a href="https://www.vumabiofuels.com/">https://www.vumabiofuels.com/</a>
	<b>Aatif Aquaponics Ltd.</b>	<b>Tanzania</b>	<b>Agritech</b>	The innovative and ecofriendly farming startup is specialized in growing and selling organic horticultural products such as basil, mint and coriander using aquaponics and hydroponics farming techniques, which is new to the East African region. The combination of aquaculture and hydroponics uses fish waste as a nutrient for plants. Aatif Aquaponics has developed a small prototype aquaponics farm in Bububu, Zanzibar, growing fruits and vegetables that are typically not grown on the island due to the inadequacy of the soil for traditional agriculture.	07.07.2023	<a href="https://aatifaquaponics.com">https://aatifaquaponics.com</a>
	<b>Melanin Kapital</b>	<b>Kenya</b>	<b>Fintech</b>	Melanin Kapital is a climate fintech platform that aims to provide affordable and efficient financing for small and medium-sized enterprises (SMEs) looking to invest in green productive assets. The company offers its main product, Kijani Credit, which enables SMEs to access green asset financing by leveraging carbon credits, AI-powered processes, and blockchain wallets. Additionally, Melanin Kapital provides an API product to financial institutions, helping them reduce climate risk and decarbonize their portfolios.	25.08.2023	<a href="https://www.melaninkapital.com/">https://www.melaninkapital.com/</a>
	<b>Rerouting Retail Tanzania Ltd.</b>	<b>Tanzania</b>	<b>E-Commerce</b>	The Company is a digital route to market business, leveraging logistics, technology, marketing, and finance to increase the total market of consumer goods in the super-frontier markets of Africa and grow the businesses of micro-retailers. The Company's indirect mission is to leverage its scale and footprint to offer job opportunities through alternative, gig-based work to thousands of young people in Africa.	25.08.2023	<a href="https://www.inalipa.com/">https://www.inalipa.com/</a>
	<b>Plant Biodefenders Ltd.</b>	<b>Tanzania</b>	<b>Greentech</b>	Plant Biodefenders Limited is a Tanzanian company that manufactures an innovative biopesticide called Vuruga Biocide. The biopesticide is made from the Aspergillus oryzae fungus and effectively controls pests like the invasive fall armyworm and tomato leafminer. The company sells its affordable and environmentally friendly biopesticide to agricultural input distributors, wholesalers, and directly to growers of various crops.	07.07.2023	<a href="http://plantbiodefenders.co.tz">http://plantbiodefenders.co.tz</a>
	<b>Mavuno (Tanzania) Limited</b>	<b>Tanzania</b>	<b>Agritech</b>	The company aims to increase the productivity of cashew smallholder farmers in Tanzania by using satellite imagery and machine learning. For that, Mavuno offers a yearly subscription for a service bundle containing satellite imagery-steered farming services, organic farm inputs and a micro loan in a buy-now-pay-later model, empowering farmers to double their harvest yield and consequently their income.	12.07.2023	<a href="https://www.mavuno.tech/">https://www.mavuno.tech/</a>
